Summary

Software engineer with nearly three decades of delivering innovative solutions across fintech, energy, and govtech sectors. For the past half decade, concentrated on AI and emerging technologies, including RAG chatbots, LLM integration, and audio AI solutions. Completed a Master's in Software Engineering in 2022 while maintaining full-time employment. Currently architecting AI solutions with practical business outcomes using OpenAI, Anthropic, Google AI, Groq, Replit, and Fal AI for text, image, and audio processing. Hardworking, adaptable and committed to continuous professional development.
